How Can Disinfectant Choice Affect Office Surfaces?

Disinfectants containing alcohols and bleach can dry-out, discolor, and/or crack plastic surfaces over time. The water based formula of the ProSpray family will not damage your office surfaces and still provides the intermediate level of disinfection your office needs. ProSpray has also been approved for use bare handed in the absence of bodily soils making it great to clean the waiting area of your office as well.

Shield™ High-Efficiency Face Mask

Shield is a disposable pleated surgical face mask with a flexible nose piece and chin piece that enable the mask to conform to the face creating a positive facial lock (PFL).

- Excellent filtration certified by independent lab testing: Particle filtration = 99% at 0.1 micron.
- Positive facial lock eliminates “blow by” - the passage of particles around edges of mask.
- Fluid resistant, comfortable, and latex-free.
- Available in earloop or retention head band.

Order# PFLEL8-1: PFL Earloop - 50/box

Order# PFL008-1: PFL Retention Head Band - 50/box
