

SPECTRUM™

Foamy Spray Wax

Product Features

- Waxing agents provide excellent beading and decreased drying time.
- Adds luster and reduces streaking.
- Neutralizes high pH detergents as well as low pH acids, protecting automotive finishes.
- Colored foam shows customers that it is working.

Description:

Spectrum Foamy Spray Wax is a concentrated formula for use in automatic vehicle wash systems. Designed to protect paint and add luster through improved beading of water.

Intended Use:

Spectrum is formulated for use in automotive wash systems.

Product Specifications:

Dilution ratios: 100 - 200:1

pH Concentrate: 3.5 - 5.5

Odor: Almond (blue), cherry (red), or lemon (yellow).

Appearance: Blue, red, or yellow liquid.

Shelf Life: 5 years.

Disposal: Dispose according to all local, state and federal regulations.

Advantages:

Special formula that reduces drying time on all types of automotive finishes. Spectrum adds luster while protecting paint and other surfaces, and neutralizing acids and detergents. Highly concentrated formula that is available in three colors: red, blue, and yellow.

Applications:

Follow equipment manufacturer's directions when diluting for best results.

Precautions:

May cause mild irritation to skin and eyes. Protective eyewear and gloves are required. If taken internally, give large amounts of water. DO NOT induce vomiting. Seek medical attention immediately.
