

# ProWash™

## Multi-Purpose Instrument Detergent And Cart Wash

Anti-Corrosive • Non-Foaming • Biodegradable • Rust Inhibitor

*Premium Cleaning System*

### **Versatile:**

- ProWash is a concentrated non-foaming detergent formulated for effective results in manual systems, automated washer/decontaminators, cart washers, and ultrasonic cleaners.

### **Effective Cleaning:**

- The ProWash formula combines surfactants and rinsing agents to break up and lift sticky soils away from instrument and cart surfaces. Special water conditioners compensate for hard water while rinsing agents reduce spotting.

### **Safe for Aluminum and Delicate Instruments:**

- The ProWash neutral formula is safe for all surgical instruments including surgical grade stainless steel, titanium, aluminum, copper, brass, and tungsten carbide. A powerful anti-corrosive system protects surface integrity and the passivation layer. ProWash maintains the surface quality of aluminum racks, trays and cart washer chambers.

# ProWash™

Multi-Purpose Instrument Detergent And Cart Wash

## Description:

ProWash is a concentrated, non-foaming multi-purpose detergent suitable for use in manual and automated systems including washer/decontaminators, cart washers and ultrasonic cleaners.

## Product Specifications:

Dilution Ratios: 1/4 oz. to 3 oz. per gallon based on water quality.  
 pH: 9.3 – 9.8  
 Temperature of Use: Cleaning action is enhanced with the use of warmer water at 113 – 131°F (45 – 55°C).  
 Odor: Fresh.  
 Color: Blue.  
 Shelf Life: 3 years.

## Product Capabilities:

ProWash effectively cleans all types of metal and plastic instruments, aluminum items, trays and carts. ProWash is non-foaming and free rinsing - ideal for use in high pressure cart washers.

ProWash compensates for hard water conditions and reduces spotting without the addition of extra rinse aid products.

The ProWash formula also includes odor suppressants and instrument brightening agents.
